

SCOR PROFESSIONAL

The SCOR Professional (SCOR-P) endorsement establishes a global standard of excellence for applying the SCOR model. Now part of ASCM, we're proud to offer SCOR-P, the globally recognized standard for supply chain management.

Supply Chain Management Competence

The Supply Chain Operations Reference (SCOR) model is widely recognized as the global standard for supply chain management. The SCOR model enables users to address, improve and communicate supply chain management practices.

APICS SCOR Professional (SCOR-P) endorsement

demonstrates an individual's knowledge of SCOR and the ability to apply the model's techniques to measure, manage and improve supply chain performance. The SCOR-P endorsement indicates that an individual possesses sought-after supply chain management knowledge and skills.

For organizations, the SCOR-P endorsement provides a practical method for assessing the skills and competencies of supply chain professionals. It also establishes benchmarks for evaluating the effectiveness of SCOR training. Building an in-house pool of endorsed SCOR Professionals can help a company, government agency, or nonprofit organization apply the SCOR model to accelerate supply chain transformation and dramatically increase business performance.

APICS offers a clear path to earn the SCOR-P endorsement.

Prepare for the Exam – APICS recommends that SCOR-P candidates attend a three-day SCOR-P training course and study the materials contained within the SCOR Professional Training Participant Workbook. The schedule of public training sessions is posted on the APICS website at apics.org/public-training.

Schedule the Exam – Completion of the SCOR-P training course is recommended but not required to take the SCOR-P exam. However, candidates must purchase the SCOR Professional training course to receive an authorization to test (ATT).

Take the Exam – Exams are administered via computer-based testing and offered through a network of test centers, there are 60 questions. Candidates will have two hours to complete the exam.

Receive Exam Results – Candidates receive their results immediately upon completion of the exam. Results are confidential. Those who pass the exam receive instructions for downloading their SCOR-P endorsement certificate. Verification that an individual holds the SCOR-P endorsement is available online at apics.org/verification.

SCOR Professional

The APICS SCOR-P endorsement demonstrates an individual's ability to apply the SCOR model to:

- Establish benchmarks for evaluating supply chain effectiveness
- Measure and manage a global supply chain
- Dramatically increase supply chain performance

Who should earn the APICS SCOR-P endorsement?
APICS SCOR-P education is essential if you are involved in:

- Production management
- Operations
- Supply chain management
- Procurement
- Materials management
- Inventory management

About APICS and ASCM

For more than 60 years, APICS certifications and training have demonstrated a commitment to global supply chain excellence – achieved one person at a time. APICS CPIM, CSCP and CLTD are now part of the Association for Supply Chain Management (ASCM), the largest nonprofit association for supply chain professionals. ASCM is proud to offer the globally recognized certification programs you've come to trust.
